

Transforming Ideas into Trusted Digital Solutions

Company Profile & Services Overview — 2026

help-support@oxbiy.com

Who We Are

OXBIY is a technology company specialised in creating **custom digital solutions** for businesses and individuals. We develop modern web and mobile applications, automate business processes, and build trusted digital ecosystems that enable organisations to grow securely and efficiently.

Our mission is to **empower businesses through innovative technology**, intuitive design, and secure digital infrastructures — delivering measurable results and lasting value to every client we serve.

■ Mission	■ Vision	■ Values
Empower businesses through innovative technology and secure, scalable digital platforms.	To be the most trusted digital partner for organisations across Africa and beyond.	Security-first. Client-centred. Innovation-driven. Reliable. Transparent.

Our Services

We deliver end-to-end digital solutions across two core practice areas.

Category 1 · Custom Application Development

Web Application Development

Bespoke, responsive web applications built on modern frameworks—scalable, fast, and SEO-ready.

Mobile Application Development

Native and cross-platform mobile apps for iOS and Android, crafted for seamless user experiences.

UI/UX Design

Human-centred design that blends aesthetics with usability—wireframes, prototypes, and final interfaces.

Business Process Automation

Streamline workflows and reduce manual effort with intelligent automation tailored to your operations.

API Development & Integration

Robust RESTful and GraphQL APIs that connect your systems, partners, and third-party platforms.

Category 2 · Secure Digital Ecosystems

Secure Online Platforms

End-to-end encrypted platforms built with security at every layer—infrastructure, application, and data.

Authentication & Access Management

Multi-factor authentication, SSO, and role-based access controls to protect sensitive resources.

Data Protection & Privacy

GDPR-aligned data governance, encryption at rest and in transit, and privacy-by-design architectures.

Cloud Infrastructure Deployment

Scalable, resilient cloud environments on AWS, Azure, or GCP—DevOps pipelines included.

Cybersecurity Consulting

Vulnerability assessments, penetration testing, and security roadmaps tailored to your risk profile.

Our Featured Projects

Job Finder

Recruitment Platform

A recruitment platform that connects job seekers with employers through an intuitive and secure interface. Job Finder simplifies job searching, application tracking, and candidate management — reducing time-to-hire and improving the experience for both applicants and hiring teams.

Stack	React · Node.js · PostgreSQL
Key Feature	Real-time application tracking
Security	JWT auth & role-based access

Chez Moi

Real Estate Platform

A real estate platform that helps users discover and rent houses or apartments easily. Chez Moi offers secure listings, detailed property information, high-quality imagery, and direct communication between tenants and property owners — making the rental journey transparent and stress-free.

Stack	Next.js · Django · MongoDB
Key Feature	In-app owner–tenant messaging
Security	Verified listings & secure payments

Why Choose OXBIY

Innovative & Scalable Solutions

We architect systems designed to grow with your business—no ceilings, no compromises.

Security-First Development

Security is embedded at every layer of design, code, and deployment—not bolted on afterwards.

Modern, Intuitive Design

Our interfaces are beautiful and effortless to use, driving higher adoption and engagement.

Tailored to Every Client

No generic templates. Each solution is crafted specifically around your goals and constraints.

Reliable Technical Support

We stand behind our work with dedicated post-launch support, monitoring, and continuous improvement.
